

## **Privacy Policy**

**Effective Date: June 23, 2024**

### **Introduction**

Welcome to “Insight - Self-Reflection” (“we,” “our,” or “us”). We are committed to protecting your privacy and providing a safe, useful service. This Privacy Policy explains our practices regarding the collection, use, and disclosure of information through our mobile application (the “App”).

### **Information We Collect**

We do not collect or store any personal information from our users. All data, including audio recordings and generated analyses, are stored locally on your device. We do not have access to this information. The transcribed recordings processed through our servers and the responses generated are not saved. Our server engine is designed without any mechanism for long-term storage of the data it processes.

### **Subscription Status Validation**

Access to our server is restricted to subscribed users only. The data sent for analysis includes subscription receipt information provided by Apple's StoreKit. This receipt information is used solely for validating your subscription status and does not provide access to any other personal information.

### **How We Use Information**

As we do not collect or store your information, we do not use it for any purpose. The App processes your audio recordings locally on your device and sends anonymized text to our server for AI analysis.

### **Data Storage and Security**

All your data is stored locally on your device. We do not have access to this data and cannot retrieve it if lost. You are responsible for maintaining the security of your device and backing up your data. We recommend regularly backing up your device to prevent data loss.

### **Third-Party Services**

We use third-party AI services to generate analyses. When you use our App, anonymized text is sent to our server, which acts as a proxy to select the most suitable AI service. We do not share any personally identifiable information with these services. These third-party services are governed by their own privacy policies, which we encourage you to review.

### **Children's Privacy**

Our App is not intended for use by children under the age of 13. We do not knowingly collect personal information from children under 13. If we become aware that we have inadvertently received personal information from a user under the age of 13, we will delete such information from our records.

### **User Rights**

As we do not collect or store any personal information, you have no data to request access to, rectify, or erase. Your privacy and data security are inherently protected by our system design.

### **Changes to This Privacy Policy**

We may update this Privacy Policy from time to time. We will notify you of any changes by posting the new Privacy Policy on this page and updating the "Effective Date" at the top. We encourage you to review this Privacy Policy periodically to stay informed about our practices.

### **Contact Us**

If you have any questions about this Privacy Policy, please contact us at [12tem@outlook.com](mailto:12tem@outlook.com).
